

HONORING
THE PAST

LOOKING TO
THE FUTURE

**Welcome to the 50th Annual
Environmental Education Council of Ohio
Conference
April 6-9, 2017
at Deer Creek State Park Lodge**

For 50 years, educators from all over the state have been coming together for this conference, and we are thrilled to celebrate all those years of greatness, with many more to come. As educators, we see the future in front of us every day and we are privileged to have an influence in the lives of those we teach. This year's theme, "Honoring the Past, Looking To the Future", will allow us to appreciate all of the goals that have been achieved over the last 50 years. It will be a chance to see how much impact we have made over that time so that we can continue the excellence we have already achieved, improve our ability to accomplish the mission of EECO, and our missions as educators: to nurture knowledge, ideas, engagement, and to bring people together to learn and grow in our natural world.

Conference strands include:

- Engaging Minorities in the Outdoors
- Environmental Careers
- Outdoor Education
- Fundraising
- Technology in Nature

Conference highlights include:

- Keynote from Judy Braus, Executive Director from the North American Association for Environmental Education on the future of EE across the continent.
- Friday night fun and entertaining nature interpretation from author and naturalist Denny Olson!
- Educational field trips to Native American Earthworks, Battelle Darby Creek Metro Park Nature Center, the Buffalo Soldier Monument and more!
- Graduate credit is available through Ashland University.
- Registered Sanitarian credits are also available.

Please join us for a fun, hands-on, and outstanding professional development opportunity! **Early Bird Registration ends March 11th. Final Registration Deadline is March 24th. Room Block Ends February 17th!**

Program of Events

50th Annual Conference

April 6-9, 2017

The codes that follow each session description indicate which strand the session addresses as follows: EM=Engaging Minorities in the Outdoors, EC=Environmental Careers, OE=Outdoor Education, F=Fundraising, TN=Technology in Nature. Settings are also listed as Indoors, Outdoors or both.

Thursday April 6, 2017

9:00 am - 4:00 pm

Ohio Student Wildlife Research Symposium

Join high school students and teachers from around Ohio as they present their wildlife and habitat research projects in this first ever research symposium for high school students. \$35 for adults, \$20 for students, includes lunch. Please see the agenda online at <http://eeco.wildapricot.org>

Friday April 7, 2017

Field Trips

FT1—8:30am—6:00pm **Ohio Native American Earthworks and Natural History Tour**—Join us on this full-day “Magical Natural History Tour.” You will tour some of the notable prehistoric Native American earthworks in southern Ohio including Serpent and Seip Mounds. The advance of spring and early spring wildflowers along with Ohio caves will be the focus of hikes at the Highlands Nature Sanctuary and the Miller State Nature Preserve. **Please bring money for lunch at a local Amish Bakery.** Transportation will be by car pool. Tour will last from approximately 9:00 am until 6:00 pm and will be led by Ohio State Park Naturalist and Shawnee State University instructor Matthew Minter. Outdoors. \$10

FT2—8:30am-4:30pm **World Heritage Site Nominee Field Trip to Hopewell Cultural National Historic Park** in Chillicothe. Along with Newark Earth Works and Fort Ancient, the Hopewell Earthworks in Ross County has been nominated as the next World Heritage Site. These remarkable structures will be visited and interpreted during hikes to Hopeton Earthworks, Mound City Earthworks Group, Hopewell Mound Group, and Junction Earthworks. Includes visits to sites and a program at the Visitor Center at Mound City. Transportation will be by car pool. Field trip will be led by Dave Todt, Shawnee State Professor and Board member of the Arc of Appalachia (owner of Junction Earthworks). Indoors/Outdoors. **Please bring additional \$10.00 cash for a lunch catered by the Old Canal Smokehouse at the Visitor Center. \$10**

FT3—10:30am-12:00pm **U.S. Army Corps of Engineers- Deer Creek Lake**

Deer Creek Lake was designed and built by the U.S. Army Corps of Engineers. The Deer Creek Lake project was first authorized by the Flood Control Act of 1938, for the purpose of flood control, recreation, and fish and wildlife enhancement. Dam construction was begun in 1965 and completed in 1968. Deer Creek Dam is a part of the larger comprehensive flood control plan for the Ohio River Basin, a system of dams that reduces flooding on the Scioto and Ohio Rivers by holding back flood water. In addition to flood reduction, the U.S. Army Corps of Engineers works in cooperation with Ohio Department of Natural Resources' Division of Parks and Division of Wildlife to provide lakeside recreation and fish and wildlife management. Take a 90 minute tour of the Deer Creek Lake Dam beginning at 10:30 am to learn about how the Dam functions. The Dam is a short 10 minute drive from the state park lodge. Indoors/Outdoors **\$10, lunch not provided. See lunch options for Workshops.**

8:30am—11:30am

Morning Workshops

W1—Leopold Education Project

The Leopold Education Project's curriculum and lessons, based on Aldo Leopold's writings, facilitates interdisciplinary exploration of both arts and sciences. Lessons build skills in observation, field identification, land stewardship, natural history and environmental values. This is a full-day session, Leopold lesson materials will be included. Indoors/Outdoors OE, TN. Susan Setterlin, Kim Kaseman, Leopold Education Project State Co-Coordinator, and Jen Elsworth, Toledo Metroparks. **\$25**

W2—Becoming Part of the Whole

This workshop focuses on strategies that build an inclusive community, engaging children in learning both inside and outside the classroom. Population Connection activities will serve as the springboard for inquiry-based learning. Indoors/Outdoors, EM, OE. Cathy Knoop, Population Connection and CISV. **\$10**

W3—Creating a Youth Climate Action Team

Learn about creating a Youth Climate Action Team with your school that sets middle or high school students up to engage with climate change and energy issues in positive, active ways that also meet school learning targets. Indoors/Outdoors, EC, OE, TN. Joe Brehm and Sam Romeo, Rural Action and Ohio Stream Restore Corps. **\$10**

11:30am –1:30pm

Lunch Break

An optional box lunch is available for \$19. Otherwise, participants should make plans to provide their own lunch, either by ordering from the lodge restaurant, or packing their own.

1:30pm –4:30pm

Afternoon Workshops

W1—Leopold Education Project—continued from morning session

W4—Teaching the Greatest Challenge of Them All: Climate Change

This workshop will introduce the “four dimensions of climate change” framework for educators, as well as a variety of hands-on activities that help young people understand climate change and take action in their communities. Indoors/Outdoors, OE, TN. Tim Grant, Green Teacher \$10

W5—Experiencing Science Education in Soundscape Camp & Measuring Youth Conceptual Understanding and Interest

Soundscapes are the acoustic properties of a place, composed of biological, geophysical and anthropogenic sound sources in a particular location. This workshop will focus on the design and use of informal participatory activities related to learning about soundscapes. Indoors/Outdoors EM, OE, TN Maryam Ghadiri, Research Assistant and Curriculum Designer, and Benjamin Gottesman, Center for Global Soundscapes, Purdue University. \$10

4:30pm–6:00pm

Optional Activities

You can join us for an optional free Trap Shooting Session outdoors at the Deer Creek Shotgun Range from 5:00pm–6:00pm. The Shotgun Range will be opened only for conference attendees and is just a short drive from the lodge. You can also spend some time perusing our vendor/exhibit area.

6:00pm–7:00pm

Friday Night Welcome Dinner

Join us for the welcome dinner and chat with old friends and make new friends!

7:00pm–8:30pm

Friday Evening Keynote Speaker

Denny Olson's formal training as a biologist and geologist, as well as teaching nature for over 20 years in the north woods and mountain west, has given him expertise in many disciplines. He has done research on beavers, hares and loons, and received an M.S. Degree (magna cum laude) from the University of Minnesota. From those scientific beginnings he forged an unlikely union between science, humor, and drama, and established a national reputation as an innovative performer and educator. He will introduce us to Professor Avian Guano, who will be discussing migratory birds in North America.

8:30pm–11:00pm

Hospitality Suite

Saturday April 8, 2017

Concurrent Sessions, Keynotes, Exhibits

7:00am–8:00am Bird Hike—tentative

8:00am–9:00am Breakfast—Join your EECO Regions and network while enjoying your breakfast.

9:00am–9:15am Welcome and Conference Opening—Brenda Metcalf, EECO Executive Director

9:30am-10:30am

Concurrent Session 1

A1—Nature and Literacy: Using the “reading bandwagon” to get kids outside

Explore how books act as catalysts for getting kids engaged in nature. This session will dive into the best nature stories, program methods, and discuss developing partnerships between parks and local libraries. Indoors/Outdoors, OE. Joshua York, Five Rivers MetroParks; Dori Hegyi, Dayton Metro Library

A2—Scat on the iPods: Using Technology to Discover Nature

See how Franklin County Metro Parks, eight school districts, administrators and teachers partner using various technologies as a tool to get students to unplug and explore their environment. Indoors, EM, OE, TN. Tanya Taylor, Franklin County Metro Parks

A3—Changing Pace and Place: Process Skills in the Schoolyard

Observing, describing and classifying are important process skills used in many subjects. Join in a lively session filled with ideas for schoolyard activities that encourage students to focus and utilize their creative energies. Indoors, OE. Dr. Herb Broda, Ashland University

A4—Getting Urban Youth Excited about Water Careers!

Learn about two successful programs that introduce high school students in Dayton and Cleveland to career opportunities in drinking water and wastewater treatment and distribution. Indoors, EC. Carolyn Watkins, Ohio EPA; Ebony Hood, NE Ohio Regional Sewer District; Karen Thomas, City of Dayton Department of Water

A5—NatureTracks: Mobile Outreach

The NatureTracks vehicle is a self-contained mobile classroom designed to serve as a mobile educational and promotional ambassador to local communities. Come learn more about NatureTracks and experience a class like no other. Indoors/Outdoors, EM, OE, TN. Mario Jackson and Angelec Hillsman, Cleveland Metroparks

A6—Getting Beyond First Impressions

You will explore and discuss ideas and activities to increase the comfort level, connection and motivation for students of varying cultures, languages and social settings to spend time in nature. Indoors, EM. Linda Pettit, Franklin SWCD

10:30am –10:45am

Enjoy some snacks and visit with our vendors.

Morning Break

10:45am –11:45am

Concurrent Session 2

B1—Get OUTSIDE! Tips, Tricks, and Nature Games

Looking for tips, tricks and games to develop or expand your outdoor education repertoire? Nature games can effectively teach about camouflage, echolocation, classification, history, and more. Let's go outside! Indoors/Outdoors, OE. Gia Giammarinaro, Cincinnati Park Board

B2—Environmental Cross Training: Creative Writing in the Outdoors

This session will explore interactive outdoor writing prompts to help educators focus on writing as a tool that can be flexibly practiced across all subjects. Indoors/Outdoors, OE. Amanda Kriner, Richland Park District

B3—Our Success in a Citizen Science Project and How Technology Can Improve Participation

The Muskingum Reptile and Amphibian Survey, a citizen science program of the Muskingum SWCD, began in January 2016. The project collected data on over 300 individuals of over 40 species of herps from Muskingum County in just its first year. Come learn how this project became such a success, and how we incorporated technology to both increase participation in the survey and help collect and report data. Indoors, TN. Nicole Hafer, Muskingum SWCD

B4—Environmental Education Certification: Everything You Wanted to Know and More

EE Certification has been available in Ohio for six years. Have you heard of it? Are you curious if it is a fit for you? Join the state coordinator who will present the program and answer any and all questions you may have. Indoors, EC, OE. Jen Bucheit, ODNR-Division of Wildlife, Old Woman Creek NERR

B5—Improving Volunteer Participation Through Education

Give your volunteers the tools to engage others in outdoor education! Join us as we explore the past, present, and future of volunteer training opportunities. Indoor, EC, OE. Kathi McQueen, Darke County Park District

B6—Tools of the Trade: An Inside Look at What Helps the ODNR-Division of Wildlife Tick

The Division of Wildlife has many tools within our sections of fish and wildlife management, law enforcement, and education. Learn more about how our staff of biologists, officers, and educators get the job done to protect wildlife and to build appreciation for our natural environment. Indoors/Outdoors, EC. Jamey Emmert and Ken Fry, ODNR-Division of Wildlife

12:00pm–2:00pm Lunch, Business Meeting, & Keynote Speaker

Join us for a hot lunch and find out what EECO's been up to in the past year. This will include an opportunity to meet your current Board of Directors and review the annual budget.

Keynote: Judy Braus brings to her role as NAAEE Executive Director a wealth of experience in the environmental education profession, with a focus on conservation education, diversity and inclusion, and using the power of education to help create healthier communities that empower local communities, stakeholders, and individuals to help restore and protect the environment. She will be presenting on the future trends in environmental education across North America.

2:15pm–3:15pm

Concurrent Session 3

C1—Ohio’s Wildlife History Timeline

Ohio has a rich and varied history when it comes to its natural environment. Wildlife species have come and gone at a rapid rate for over 250 years. Changes in the landscape, increasing human population, and advances in wildlife management have created a timeline that is both sad and successful. Join us for an interactive experience with Ohio’s wildlife history. Indoors, OE. Jamey Emmert and Karen Norris, ODNR-Division of Wildlife

C2—Citizen Science and Environmental Advocacy in Cleveland Metroparks

Middle and high school students trained in Ohio EPA Stream Monitoring (QHEI) and Army Corps of Engineer’s Great Lakes tributary monitoring program (START) will share authentic field research results and environmental advocacy. Indoors/Outdoors, EC, OE. Kathryn Kwiatkowski, Case Western Reserve University; Environmental Heroes Students, Case Western Gelfand STEM Center

C3—A “Bird’s Eye” View of Conservation

Whether discussing “the Big Picture”, conducting field research, or just preparing for a field trip, drones provide “eyes in the sky” that can enrich any environmental lesson. Examples of how this technology can be incorporated into your lesson will be provided, along with an outdoor demonstration. Indoors/Outdoors, EC, OE, TN. Jim Reding and Evan McCullough, Granville School District

C4—Shining the Light on STEM in Your Community

Discover how the LIGHT (Literacy, Inquiry, Getting Outside, Having Fun, Time Spent with Family) Project has inspired communities to embrace outdoor education opportunities. Learn how a little community grant has resulted in over 550 first graders participating in active free play and discovery. Indoors/Outdoors, OE, F. Angela McMurry, Darke County Education Services Center

C5—StoryTrail-Building Families and Literacy in Nature

For families, the benefits of time spent outdoors with a good book can not be overestimated! Discover all the ins and outs of creating a nature trail where educators, on a budget, can foster an appreciation of nature, exercise, and literacy. Indoors, EM, OE. Nancy Gregory and Beth Spieles, Dawes Arboretum

C6—Including All: Diversity, Equity, and Inclusion in Theory and Practice

The Conservancy for Cuyahoga Valley National Park is focusing on an initiative to address diversity, equity, and inclusion throughout our organization. An overview of the initiative and a group discussion about outcome and activities will be offered. Indoors, EM. Deb Yandala, Katie Wright, Jesús Sánchez, Conservancy for Cuyahoga Valley National Park

C7—Storytelling Training for Educators—Two-part Session

Public presentation and speaking is more frightening to human beings than death! The ability to tell a story and use non-verbal “acting” skills to involve listeners is the single-most powerful persuasion tool we have. In this session, storytelling skills will be made accessible to the shyest of people. Indoors, EC, OE. Denny Olson

3:15pm–3:30pm

Afternoon Break

Enjoy some snacks and visit with our vendors.

3:30pm–4:30pm

Concurrent Session 4

D1—Using Inquiry to Engage Student Interest in Scientific Studies

Using a WILD School Site study area, come learn how students investigated arthropod species richness in different areas and the comparisons that were made. Participants will learn inquiry methods that fit Ohio standards, including food webs, energy flow, and quadrant survey methods. Indoors/Outdoors, OE. Jeff Baker, Muskingum Valley ESC and the Alpha School.

D2—Desired Behavior Change: Tools & Methods to Achieve Success

Most waste and recycling education efforts focus on raising awareness, but don’t go far enough to actually elicit desired behavior change in program participants. In this session, educators will learn how environmental design, interior infrastructure, new technology (carts with RFID), and social media—coupled with strategic classroom activities can significantly improve recycling efforts at home, at school, and in your community. Indoors/Outdoors, TN. Sue Magness, City of Cincinnati

D3—Tying Education Together with Citizen Science

Kids are scientists! Let’s bring their natural curiosity to the schoolyard with citizen science. We will explore several citizen science projects to incorporate into the classroom. Indoors/Outdoors, OE, TN. Chelsea Wallace, Lauren Asquith, Five Rivers MetroParks.

D4—Learning Through Outdoor Games

Outdoor games provide sensory-rich introductions to important ecological concepts, and bring students and teachers closer to the natural world. This session will introduce a variety of the best games developed by youth educators. Outdoors, EM, OE. Tim Grant, Green Teacher

D5—In Dialogue with Nature

This session will be a multimedia overview of the Children and Nature movement at the Program for Young Children, Columbus School for Girls. Our discussion will inspire participants by covering curriculum strategies, overcoming challenges, celebrating accomplishments, and sharing ideas. Presentation includes live music, videos, and lots of examples of the visual arts. Indoors/Outdoors., OE, EM. Jenny Morgan and Jill Smith, Columbus School for Girls

D6—Gardening the Native Way

Many people who are interested in green living are turning to Native American gardening techniques to learn how foods were grown in the past. Native Americans had to survive on what they grew, as well as what was available in the wild. Some of the techniques that they used in the past are still used successfully today. Indoors, EM OE, TN. Bill Dawson, Franklin Park Conservatory and Botanical Gardens

C7—Storytelling Workshop con't.

4:30pm—6:00pm

Networking, Silent Auction

This is your chance to check out all the vendors and displays, chat with new and old friends, and get your bids in on all the fantastic silent auction items. So bring your wallets and your business cards!

5:00pm—5:45pm

Environmental Education Certification Poster Session

Come check out what this year's Ohio Environmental Education Certification Program graduates learned over the last year. Each student will be displaying a compilation poster to highlight what they've learned. The EE Certification program coordinators will be there to answer any questions about the program. Light snacks provided.

6:00pm—9:00pm

Awards Banquet and Live Auction

Come join us as we close out the conference with a dinner buffet and stay to congratulate this year's award recipients. We will also have some fantastic items for you to bid on at the Live Auction. All proceeds go to the EECO Endowment Fund.

9:00pm—11:00pm

Hospitality Suite, Night Hike—tentative

Sunday April 9, 2017

7:00am—8:00am

Bird Hike—tentative

8:00am—9:00am

Breakfast with Interest Groups, Raffle (must be present to win)

8:30am—12:00pm

Field Trips

(Participants should plan to provide their own transportation and lunches to Sunday Field Trips.)

FT4—8:30am-12:00pm Battelle Darby Creek Metro Park

Battelle Darby Creek is the largest Metro Park in central Ohio with more than 7,500 acres of prairies, fields and forests, and more than 20 miles of riparian forest along the Big and Little Darby Creeks. The Darby creeks are noted nationally for their tremendous diversity and abundance of both aquatic and terrestrial plants and animals. Designated as state and national scenic rivers, the creeks are home to around 100 species of fish, five of which are endangered in Ohio. Forty-four species of freshwater mussels live in these waters, eight of which are on the Ohio endangered list. Metro Parks has restored about 500 acres of wetlands, 500 acres of wet prairies and more than 1,200 acres of lush flowering prairies using only seeds native to the Darby Plains. We will depart Deer Creek State Park Lodge at 8:30am, arrive at the Nature Center at 9:15pm, with the presentation and tour running from 9:30am to 11:30am. You will learn about the park's new bison program, tour the educational facility, and learn about educational programs that local parks provide. After the presentation everyone is welcome to explore the park on their own. Transportation and lunch for this trip will be on your own. Indoors/Outdoors

FT5—10:00am-5:00pm Charles Young Buffalo Soldiers National Monument Tour

This National Monument is located in west-central Ohio, in the town of Wilberforce. It commemorates the life of Charles Young, a soldier, diplomat, National Park Superintendent, and civil rights leader. Charles Young overcame stifling inequality to become a leading figure in the years after the Civil War when the United States emerged as a world power. The park was officially dedicated on April 2nd, 2013 and is the nation's 401st National Park Service site. The site will receive EECO Conference members from 10:00am - 5:00pm. Indoors

We hope you find this conference to be an exciting and beneficial professional development opportunity.

If you have any questions about the program, the registration process, or any other topics or issues, please contact Brenda Metcalf, EECO Executive Director, at 740-653-2649 or director@eeco-online.org.

You can also contact Jen Dennison, Conference Chair, at 614-265-6316 or jen.dennison@dnr.state.oh.us for assistance.

We look forward to seeing you at Deer Creek!
